

Welcome to Combat Hangman !

The Fun starts here !

Combat Hangman is a game for two players and is suitable for ages 7 – 10. You can also use the grids provided to play the traditional version of Hangman.

What to do now:

Simple ! Print off this page once, print one copy of the next page for each person playing. Take a moment to read this page and that's it! You're ready to play!

Getting Ready:

Each player will need a pen to write with and one of the sheets of paper that you have just printed off.

How to play:

Each player thinks of a word and writes it down in the space marked "your word goes here"

Then you both say how many letters there are in your word.

Draw a small line for each letter in your opponent's word – so if your opponent has thought of a five letter word, you would draw five small lines like this:

Your opponent's word goes here: _ _ _ _ _

Then take turns to call out letters, trying to find the ones that appear in your opponents word.

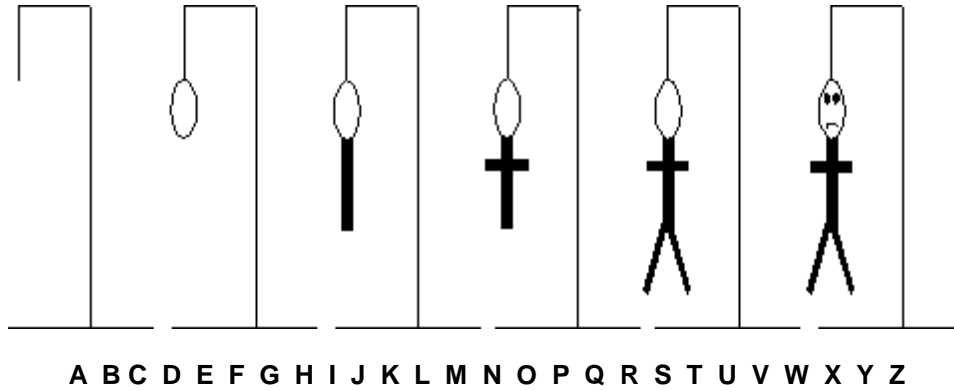

If you call out a letter is called which appears in your opponent's word then your opponent must say which line it fits onto and your write it down.

If you call out a letter that is not in your opponent's word, you should put a cross through the first hangman image (the empty gallows) on the page. It's a good idea to write the letter down beside the image. Each time you call out a letter that isn't in your opponent's word, you cross out another image.

If you cross out all your images then you've lost and it's time for another game!

If you like this game, can we suggest that you try "Scirmish" – it's a brilliant game that you can download free from
