

Welcome to Mashed Potato !!!

MASHED POTATO

Players: 5 or more. Equipment: None

Mashed Potato is a simple and silly party game for children.

Every player nominates a vegetable for themselves. In this game you must talk without showing your teeth which means pronunciation is difficult. Choosing vegetables that are hard to pronounce under these circumstances will add hilarity to the game (try 'creamed swede' for example). The first player says his vegetable followed by another player's. That player says their own vegetable followed by another player's and so on. At no time can any player show their teeth, so even if somebody laughs, they must cover their mouths. Players lose (or suffer forfeits) for showing teeth and hesitating for too long – it is up to you to decide how long is “too long” or what the forfeits should be.

At www.FreeBoardGames.com you'll find lots more games like this as well as thousands of free copies of great new board games, family games and party games (real ones in boxes) that we send out to your home for a small delivery and administration fee.

Come and discover some great new ways to have fun!
